**Oracle EnterpriseOne Accelerated
Solution for the Mining industry**

OracleAccelerate

Common Problem Facing Mining Companies:
“The challenge has always been finding an ERP system along with an implementation team that actually understands the industry and can deliver a solution to the mining sector quickly and effectively for both Construction and Operations.”

iSP3's Solution to the problem:
“iSP3 specializes in the implementation of Oracle EnterpriseOne for Mining companies in the SMB space. We have created a solution consisting of industry best practices, configuration templates, proven business processes and an implementation methodology that will deliver a complete system in a much shorter time and therefore lower cost.”
